Experience

Loti AI Mar. 2025 – Present
SDE1 *Remote, USA*

- Collaborating on building an AI-powered facial recognition system to detect and prevent non-consensual sharing of intimate content online, strengthening digital safety
- Developed the Admin Portal for sales and operations teams to manage prospects and onboard verified artists, improving workflow efficiency by over 40%
- Implemented bulk upload and bulk edit features, enabling large-scale data management and reducing manual entry time by 70%
- Enhanced frontend performance with React and TypeScript through component optimization and API integrations, achieving a 30% faster and smoother admin experience

Enpointe IO Aug. 2024 – Jan. 2025
Software Developer *Remote, India*

- Collaborated in developing a comprehensive clinic management system serving 42+ locations, 187+ staff members, over 4,000+ patients, and facilitating 18,000+ appointments
- Added key features like appointment scheduling, dynamic form builder, payment integration, and Zoom link automation
- Revamped the report system, adding dynamic headers, footers, and watermarks to PDF reports
- Improved the appointment logging API, cutting load time by 35%

Bunch Infotech Nov. 2023 – Dec. 2023
Web Developer Intern *Remote, India*

- Developed responsive and reusable UI components for the Scottish Central School website
- Improved design consistency and optimized performance through close collaboration with stakeholders

Projects

ImageAlchemy | *TypeScript, NextJS, Tailwind, MongoDB, Stripe, Cloudinary AI, Zod, Clerk*

- Built a SaaS app with AI features and a payments and credits system using Next.js 14 and Cloudinary AI
- Provides services such as image restoration, object removal, recoloring, and background removal
- Deployed live on Vercel with seamless CI/CD integration via GitHub

ByteBliss | *JavaScript, ReactJS, NodeJS, ExpressJS, MongoDB, MVC*

- Developed a feature-rich blog application, demonstrating proficiency in both frontend and backend technologies
- Implemented user authentication, CRUD operations for blog posts, rich text editing, and image uploading functionalities

Technical Skills

Frontend: JavaScript/TypeScript, React.js (Next.js), Redux Toolkit, Zustand, TanStack Query, Tailwind CSS, Shadcn, HTML, CSS
Backend: Node.js (Express.js), Python (FastAPI), RESTful APIs
Databases: MongoDB, PostgreSQL, Supabase
Tools & Workflow: Git, GitHub, Postman, VS Code, Cursor, Claude Code

Education

Dr. A.P.J. Abdul Kalam Technical University India
Bachelor of Technology in Computer Science *Aug. 2020 – July 2024*
